LEINFELDER No. I

The distinctive design and volute-shaped lugs give the LEINFELDER No. I its magical appeal. This was our original vision for a watch. Each LEINFELDER watch is made by hand in our studio, from initial sketch right through to the meticulous finish. All our watches have self-winding Swiss precision movements finished according to our unique design vision. Each watch has its own serial number and each edition is strictly limited to 63 in honour of 1963, the year LEINFELDER was founded.

Movement: Self-winding mechanical movement, ETA2892-A2, finished with Côtes de Genève pattern on the rotor, engraved LEINFELDER logo, plates circular-grained and rhodium or gold-plated

Functions: Hours, minutes and centre second hand, date at 3 h

Case: 750 yellow or white gold, diameter 37.5mm height 10mm, sapphire glass, screwed case back with sapphire glass, crown and lugs set with sapphire cabochons, water-resistant

Face: White with black Roman numerals and blued steel hands or black with white Roman numerals and rhodium-plated hands, set with 11 sapphire cabochons or, alternatively, index points

Strap: Crocodile leather in brown or black, foldover clasp or buckle in 750 yellow or white gold
